Profile

Dynamic MERN Stack Developer skilled in building scalable web applications using MongoDB, Express.js, React, and Node.js. Proficient in creating RESTful APIs, responsive UIs, and efficient NoSQL databases. Experienced in modern JavaScript, secure authentication, and cloud deployment (AWS, Vercel). Collaborative and detail-oriented, delivering clean, optimized code in Agile settings.

Education

BSc in Computer Science

Faculty of Computers and Information - Al-Mansoura University

Studying core subjects in software engineering, algorithms, databases, and web development with a strong focus on practical application and teamwork through projects and presentations.

Front-End Web Development

Udacity Nanodegree Scholarship

Selected among thousands for a competitive scholarship program focused on building real-world front-end development skills using HTML, CSS, JavaScript, and responsive design.

Projects

RealEstates - Platform [🔗](#)

MERN Developer

A full-stack real estate platform, featuring property management, real-time chat, and live notifications. Includes secure JWT authentication with role-based access (Agent, Finder, Admin).

easyGco web Pages [🔗](#)

E-commerce Solution

Built a landing page for an all-in-one e-commerce solution that enables users to quickly launch online stores, accept 300+ payment methods (including crypto).

UpWall - Landing Page [🔗](#)

Front-end Developer & UX Designer

Built a landing page for an app growth platform, highlighting user acquisition, onboarding, monetization strategies, and real-time analytics.

Landing Page - Dental Professional [🔗](#)

Front-end Developer & UX Designer

Built a clean, informative landing page tailored for a dental professional, featuring service offerings (implants, micro-surgery, training), credentials, and clear, user-friendly structure.

EasyGCO - Admin Dashboard [🔗](#)

Front-end Developer

Created a polished dashboard for monitoring e-commerce activity: notifications, sales metrics, order tracking, product management.

Skills

Languages (HTML5 | CSS3 | JavaScript (ES6+) | TypeScript)

Frameworks/Libraries (React.js | Next.js | TailwindCss | Bootstrap | Sass (SCSS) | Node.js | Express.js | Nest.js)

Databases (MySQL | MongoDB | MsSql)

Design (Cross-Browser Compatibility | Accessibility (WCAG), SEO Basics | RestFul APIs | GraphQL)

Design (Figma | Adobe XD | Wireframing | User Flow)

Tools (Git | DevTools | Vs Code | Postman)

Web Concepts (Responsive Design | Mobile-First)

Web Security (HTTPS | Understand CORS | secure API authentication mechanisms)

Deployment (AWS | Vercel | Render | Heroku | Netlify)

Interests

UI/UX design and user behavior | Front-end performance optimization |

Learning modern web technologies | Contributing to open-source projects |

Designing clean and minimal interfaces | Exploring tech communities and design trends |

Personal branding and digital portfolios
